

FRANCO SILVESTRI

HR BUSINESS PARTNER | WORKFORCE PLANNING & PEOPLE ANALYTICS | HR PROCESS INNOVATION

fransilvestri95@gmail.com | Buenos Aires, Argentina | [linkedin.com/in/fransilvestri95](https://www.linkedin.com/in/fransilvestri95)

PROFESSIONAL PROFILE

HR professional experienced in acting as a strategic business partner to leaders and global stakeholders, combining Workforce Planning, performance management, People Analytics, and employee engagement. I collaborate on talent planning across all levels (from interns to Managers and Directors), drive data-informed decisions through Power BI dashboards, and lead culture, recognition, and technical capability-building initiatives within the team. Additional experience in recruiting, training, HRIS (Workday), and coordination of multidisciplinary, global teams.

PROFESSIONAL EXPERIENCE

Staffing & Deployment Senior Associate — PwC (Acceleration Center)

12/2024 – Present

Business Partnering & Workforce Planning

- Strategic allocation of U.S. resources across joint projects with Engagement Managers (client partners), acting as a strategic point of contact with weekly tracking of availability, hours, and utilization.
- Direct collaboration with my manager on workforce planning for Manager and Director levels, aligning availability and strategic assignments.
- Full ownership of project staffing and workforce planning for interns and entry-level employees, including welcome meetings and periodic 1:1 check-ins on their project and client experience.
- HR point of contact on time-tracking, project calendars, and leave/absence management (vacations, leaves of absence, etc.).

Performance Management & Employee Relations

- Design and implementation of performance improvement plans; 1:1 feedback and professional development meetings with Senior employees and lower levels; participation in performance evaluations and promotion decisions.
- KPI analysis (employee utilization metrics) and definition of corrective actions for low performance or low workload, in coordination with managers.
- Preparation of hour-demand reports and analysis of roles to be filled based on business needs.

People Analytics & Decision Support

- Created a Power BI dashboard and database used in team meetings with Partners (Client Services), providing visibility into hourly capacity/availability and resource utilization as a key input for business decision-making.
- Designed a Power BI dashboard, with its underlying database, that suggests projects to assign based on each employee's available free hours. Impact: 4 hours saved per month.
- Built an Excel tool (Macros/VBA) that automatically assigns resources to client projects. Impact: 10 hours saved per month.

Employee Engagement & Capability Building — Power Up Crew

- Bonding & Recognition team: End-to-end leadership of employee engagement and culture initiatives (team events, in-office birthdays, virtual bonding with the Mexico team), coordinating a team of junior volunteers and managing vendors. Created and implemented a recognition plan and its annual event at fiscal year-end close.
- Innovation team: Technical lead on Excel and Power BI within the People team's internal training program; designed a progressive training calendar (beginner to advanced) with its practice materials.

Talent Architecture Analyst — Accenture

09/2022 – 11/2024

- Built a Power BI dashboard for the Talent and HRBP team, enabling dynamic visibility into the latest role and role-family updates, previously maintained in slides.
- Managed the global role catalog in Workday (HRIS): descriptions, skills, levels, and metadata.
- Product Owner/Scrum role: scope definition, backlog prioritization, user stories and acceptance criteria, sprint planning, and facilitation of ceremonies.
- Training: designed, maintained, and delivered training sessions; speaker in Skill Management workshops and job interviews.
- Recruiting: CV screening, interviews, and coordination of vacancy closures.

- Continuous improvement: process mapping and standardization, documentation (SOPs), reduction of manual tasks and operational errors.
- Provided Workday functional support, ticket resolution, and incident handling; communicated with global stakeholders.
- Built databases and reports using Excel, Power Query, and Power BI; automated processes with Macros (VBA) and prepared dashboards.

Senior Administrative Associate — *Fundación Universidad de Palermo*

02/2019 – 08/2022

- Site Manager: onboarding, training, and coaching of advisors; operational coverage.
- Point of reference and contact for the Front Service area and Student Department.
- Handled and resolved inquiries via chat, phone, email, and in person; end-to-end case management and escalation handling.
- Coordinated and supervised academic procedures; liaised with the Ministry of Education and tracked case files.
- Audited and controlled student documentation; verified requirements and regulatory compliance; updated records.
- Treasury: payment receipt and cash management.

Seller — *HAVANNA SA*

01/2017 – 05/2018

- Customer service on the sales floor and sales support.
- Cash handling and customer payment processing.
- Product organization: display and upkeep.
